*TO*

His Excellency Joe Biden

Open letter to the President of the United States of the Americas

### **JUSTICE AND REPARATION FOR HAITIAN MIGRANTS**

Mr President of the United States,  
The Albert Bazile *Foundation* offers its compliments for the good work you do and welcomes your government's involvement in keeping your campaign promises.

In addition, the Albert Bazile *Foundation* wants to draw your attention to the latest facts producing under the Texas bridge, vis opinion of Haitian migrants.

Terrible scenes showed us how soldiers of our country, treated with such contempt and violence the Haitian migrants ,contrary to the good reception that you reserved for migrants from other countries.

The Albert Bazile *Foundation* is an American-Haitian organization, ***is shocked by such barbarity. It's inhuman and hateful!***

Haitian migrants are neither terrorists nor bombers. They are refugees who just want to live, after their president has been brutally murdered, in a country that is falling to the bottom of its existence and reigns in unprecedented chaos in its entire history.

For truth and history, we would like to remind you that the Republic of Haiti is a friendly country. Haitians are neither enemies nor a threat to the United States. A friend always seeks refuge from his friend. Don't forget that Haiti is neighbouring our country. Miami is 1h 45 minutes from Port-au-Prince.

But it is quite the opposite that your government's migration policy displays. Our Haitian neighbours, however, seek refuge from their American friends. They just want to build a better future for their children.

The United States of America establishes laws on the treatment of the weakest and most vulnerable, such as: children, women, animals and

seniors. Abuse in all its forms is reprehensible and punishable in the United States. The respect and application of all these laws and principles make our country the world's leading power and a country of human rights.

Why when it comes to Haitian migrants, laws become obsolete and consciousness hardens? Are not Haitian migrants, fragile and vulnerable people, who also need to be treated with respect and humanity?

What does the UN say? Where have all our human rights organizations gone? Why all of a sudden are they all mute and deaf?

Our Albert Bazile **Foundation** reiterates its congratulations on the good way your government has managed and welcomed Afghan migrants.

Whatever the Republic of Haiti is no longer worth diplomatically to the United States but, our foundation requires, in the name of *the Charter of Human Rights, that a proper and dignified treatment of a human being is also reserved for Haitian migrants and that life takes precedence over all selfish interests.*

The Albert Bazile **Foundation** is demanding **reparations** for all migrants and asking your administration to stop retaliation against these weak and fragile people.

The Foundation is ready to work hand in hand with your government in order to provide real support to Haitian migrants, to repair and supervise beforehand all those who might have the same intentions to flee this chaotic system that reigns in Haiti.

We are at your disposal. We make available the entire structure of our *foundation* at the disposal of your government in order to facilitate a suitable dialogue with all Haitian or other migrants.

The foundation is ready to work together to assist in the face of such a crime against humanity.

We wish you a fair and also kindly management in this crisis in favor of migrants, especially Haitians.

While *we await your acknowledgement of our concerns, we ask you, President Joe Biden,* and your administration, to please accept our best wishes.

SALVATORE ALBERT BAZILE
